

Antifatigue Sole Grounders Ergo-Stat™ ES-7000

Description

This Ergo-Stat™ ESD sole grounder uses the highest quality materials that deliver performance and durability. Fitted with a rugged removable 1 megohm resistor with 18" conductive ribbon, Ergo-Stat™ ESD provides stationary and mobile workers with safe static discharge to ground (i.e., when ribbon is tucked between the sock and shoe and a dissipative floor is used). ESD protection using Ergo-Stat™ on both feet provides consistent grounding through the entire walking motion. Like a mobile anti-fatigue mat, Ergo-Stat™ ESD dramatically reduces pain and fatigue experienced when standing or walking on hard surfaces. Ergo-Stat™ ESD footwear fit onto almost any type of footwear including safety shoes and are fully adjustable.
