- ☐ MHPH-4

### Design and Construction Features

- Ideal for use as a simple testing and preparation station for electronic products.
- Also for transporting products to and from testing areas.
- Unit includes four 24" x 60" (610 x 1524mm) shelves.
- Shelves feature patented Quad-Truss® design (patent #5,390,803), making shelves up to 25% stronger and provides a built-in retaining ledge.
- 5" (127mm)-diameter swivel casters with resilient tread and donut bumpers.
- Power harness is standard and features four full-length strips (one per shelf, each with nine outlets) and NEMA 5-15P plug. Single- and four-strip replacement power harnesses available.
