

Wide Coverage Ionizing Overhead Blower

AEROSTAT® FPD

The Aerostat FPD series of products has been designed to control electrostatic charges in assembly and electronics manufacturing applications requiring stable operation with exceptionally fast discharge time performance. The FPD overhead products are built for reliability and simplicity.

Aerostat FPD utilizes reliable, low maintenance AC corona technology with high flow rate fans to provide fast static discharge performance. The inherent stability of the Aerostat FPD reduces maintenance frequency and a built in emitter cleaner reduces maintenance time. Our unique geometry and airflow control provide consistent performance, meeting the demands of product assembly operations.

The Aerostat FPD's self-monitoring feature assures the user of controlled, consistent ion output. A light indicates both that power is applied to the unit and that ions are being produced. Performance is enhanced by use of Simco-Ion's industry leading and highly reliable AC technology.

Application-specific Blower Lengths

The Aerostat FPD Overhead Blower comes in either 2-fan, 3-fan or 4-fan chassis lengths. Each length is designed for optimal coverage area and for a variety of applications:

- A 2-fan overhead blower will provide coverage for 2 x 5 ft (0.6 x 1.5m) area
- A 3-fan overhead blower covers 3 x 5 ft (0.9 x 1.5m) area
- A 4-fan overhead blower covers 4 x 5 ft (1.2 x 1.5m) area.

Discharge Times (typical)

Discharge time across face of overhead blower and fan speed is set to 'high'.
